Beastie Bands™ Collar Info:

Made of the same soft, stretchy material that surfers wear, Beastie Bands™ collars are fully adjustable and clip to fit with a strong velcro closure. Beastie Bands™ have an eyelet for attaching I.D. and are so lightweight and comfortable that they're the only collars many cats tolerate.

Beastie Bands™ come in over 100 designs on six colors. Most designs come on a variety of background colors, but we may not have all colors available at all times. If you specify a color preference on the order form we will ship it ASAP, but keep in mind that large quantities of a single color will take extra time.

There are no minimum orders, and first time orders will receive a free re-fillable display stand. Let us pick out a colorful assortment of best sellers to speed up your order. Re-fill orders can also specify which designs to omit in order to avoid duplications - there's truly a design for every kitty!!!
